

Windows 7 User Accounts Setting for EGPS

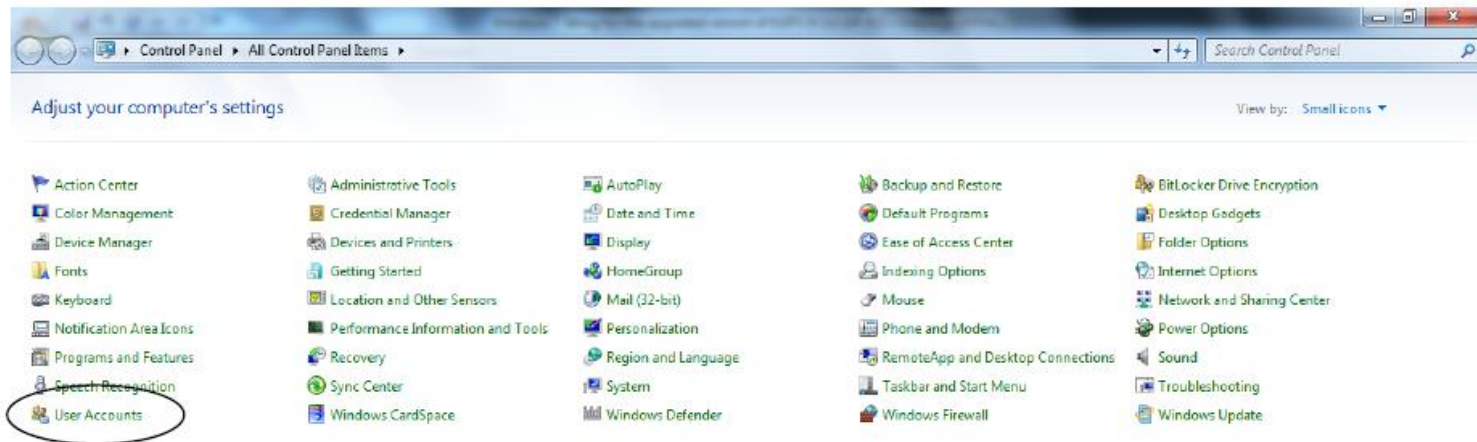

All users using Windows 7 Operating System need to ensure that the below setting is done on their machine to avoid error messages like “Failed to create SPC Stores list”

The setting is as below:

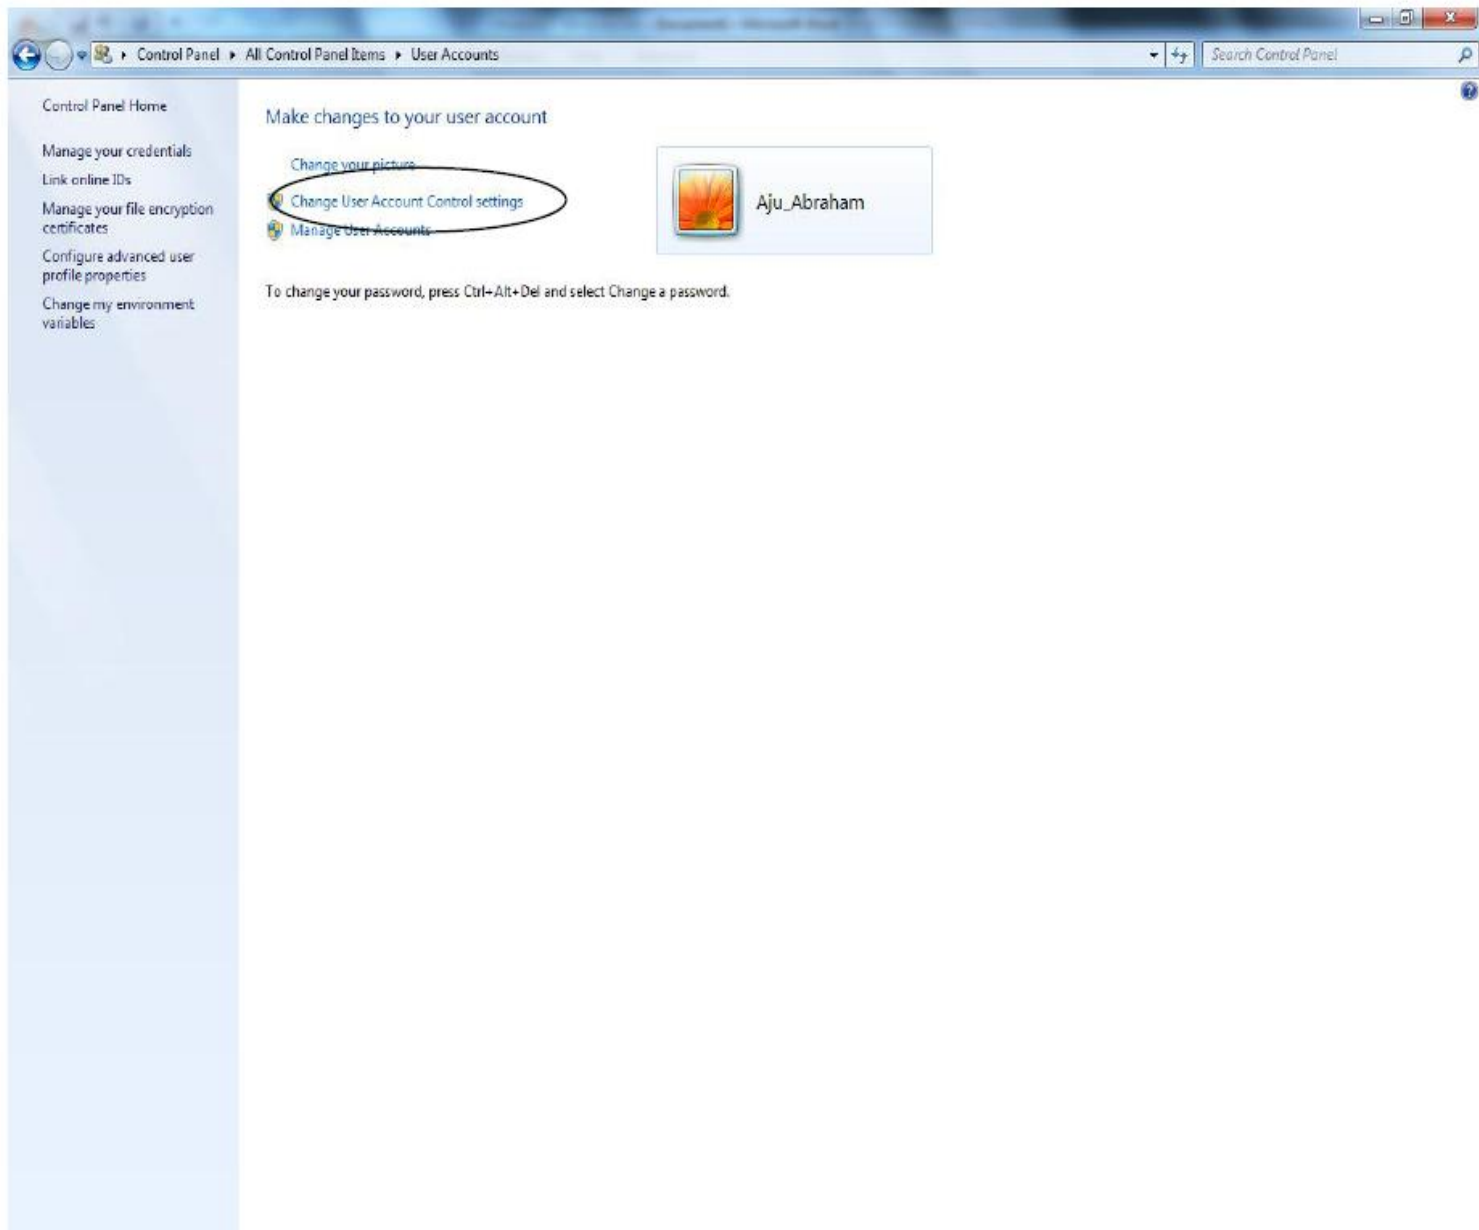

Control panel-->User Accounts-->Change user account control settings-->Pull down to NEVER NOTIFY and click on OK.

For Illustrative Demo, kindly refer below screenshots

Click on Start → Control Panel → User Accounts

Click on Change User Account Control Settings

Pull down the button to “Never Notify” and Click on OK
